

Built for Staffing.
Backed by Experience.
Focused on You.

**Talk to a broker that treats you
like their only client.**

**TAC
Benefits
Group**

Challenge the status quo

Staffing Benefits ... Simplified.

TAC Benefits Group helps staffing firms remove the complexity and cost from offering healthcare to their contingent workforce.

We make compliance easier, costs more predictable, with personalized service.

Your Independent Partner in Staffing Benefits

TAC Benefits Group is the go-to healthcare benefits broker for staffing companies.

Staffing is unlike any other industry. Most brokers don't get that. We do.

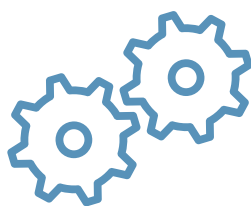

We specialize in healthcare benefits for temporary workforces. From ACA compliance to onboarding to eligibility tracking, we know how staffing works, and we've built every system, plan, and service around it.

We don't sell off-the-shelf solutions. We tailor everything around your business, your budget, and your people.

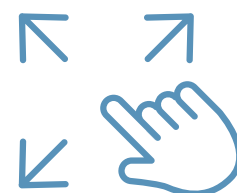

Who We Serve:

**Staffing firms
with 200–5,000+
temporary associates**

**Industries like
light industrial, clerical,
healthcare, hospitality**

**Agencies that
need scalable,
ACA-compliant benefits**

We Don't Just Offer Benefits. We Build Programs That Work.

At TAC, you get:

- ✓ ACA compliance, 100% every time
- ✓ Plans tailored for high-turnover workforces
- ✓ Support for leadership, HR, and associates
- ✓ Real people, real answers, real-time support
- ✓ Administrative relief that cuts through the chaos

Benefits Aren't Optional. Penalties Aren't Either.

You don't offer benefits because it's nice. You do it because it's the law.

TAC helps you do it right: avoiding penalties, reducing admin stress, and often recovering the upfront cost through year-end premium returns.

We protect your business. And your peace of mind.

Why Staffing Firms Choose TAC Benefits Group

We Work for You, Not a Carrier

As an independent broker, we represent your interests ... not any insurance company. We shop the market. We negotiate aggressively. Then we design a program that works exclusively with your unique needs, your opportunities, your workforce, and your budget.

Compliance Built In

Our proprietary StaffingEdge platform ensures you stay ACA-compliant, tracking eligibility, automating reporting, and preventing costly oversights. You don't need a compliance team. You need TAC Benefits.

Smart Cost Control

We challenge the status quo of rising premiums. From self-funded models to premium returns, we create funding strategies that reduce long-term costs and help clients recoup what they invest.

Hands-Off Administration

We handle onboarding, eligibility tracking, claims support, and employee service. So your internal team stays focused on staffing, not sorting out benefits.

Scalable. Flexible. Proven.

Whether you have 200 associates or 5,000+, TAC builds benefits programs that grow with your agency and adjust to market conditions.

Built Exclusively for Staffing.

Powered by Deep Expertise.

We were founded to serve a gap in the staffing world. Too many brokers have treated staffing firms like small fish in a huge pond. They have been offering one-size-fits-all plans with zero understanding of the industry's speed, scale, or complexity.

Because it doesn't really matter to them. Even though it should matter to you.

So we changed that.

When Essential Staff Care left the market in 2025, thousands of staffing firms were left stranded. We stepped up.

We built new options fast, provided strategic guidance, and we helped our clients avoid disruption. While others retreated, we delivered.

Our leadership team brings decades of experience in benefits, compliance, and staffing partnerships. We don't just get benefits. We get your business.

"Our job isn't to sell you plans. It's to solve your problems. We advocate for you like it's our own name on the door."

Michael Cleary, Founder

Proof. Not Promises.

Hear from the people who know us best.

"We've been working with the team for a year now, and we just have to say thank you. There have been a couple of tiny hiccups along the way, as you'd expect, but nothing major at all. What we value the most is that our need to get involved is so limited. They do a great job of responding quickly and making everything simple for our team, and for that, we're very grateful."

Adam Adler - HR/Safety/Risk Director
UCP Staffing

"TAC Benefits Group has provided best-in-class consulting, service and cost-effective benefits. This is especially true considering the requirements placed on us by the Affordable Care Act. I find their management and support staff to be articulate and responsive."

Adam Kidan, President
Empire Workforce Solutions

"Their ethical approach means a great deal and they do an excellent job helping the team navigate through the complexities of the U.S. health care system. We appreciate their personal and prompt service, knowledge and expertise."

Jay Feinman, Chief Financial Officer
Tester Construction Group

Let's Build a Smarter Benefits Program That Works Better for You.

Whether you're preparing for renewal, tired of overpaying for underperforming coverage, or just done juggling compliance on your own, we're here to help. No guesswork. No confusion. Just proven systems and smarter benefits strategies that work for staffing.
